

Installing Unified Messaging

The software is located on the “Call Pilot Documentation and Client Software” Disk.

- Click on the Optional Software folder
- Click on Desktop Messaging
- Click on Setup
- This opens up Installation Wizard – click Next
- Select Email Client (Outlook)
- Select language (English)
- Select Destination Folder
- Enter the Call Pilot mailbox number to be associated with the PC
- Enter the IP address of the Call Pilot.
- Make sure the default mail profile is clicked on
- Press Finish to complete the install.
