THE PERSONAL CONNECTION

Use HD video and audio meetings for a more personal and powerful connection. Easily view facial expressions and other visual cues for a rich, personalized in-meeting experience that will translate to higher engagement, higher productivity and higher sales versus travel or traditional phone conferencing.

COLLABORATIVE WEB CONFERENCING

Hosts and attendees can easily share their screen or applications with one-click to easily collaborate and make edits in real-time. Or for more polished presentations upload PDFs or PowerPoints ahead of time.

CONNECT ON THE GO

Integrated conference bridge and mobile apps make it incredibly easy for anyone to join meetings. Either dial in from phone, or join via mobile, for a truly “on-the-go” experience.
